housing chamber by the conveying medium and forms the closing body.

- 1.2 The subject matter of claim 1 thus fails to meet the requirements for novelty (PCT Article 33(2)).
- 2. Independent claim 2
- 2.1 D1 (US-A-4 117 856), which is considered to represent the prior art closest to the subject matter of claim 1, discloses (see the entire document) a fixture
 - which is designed as a flow regulator and is insertable in a gas or liquid line, said fixture having a housing (14, 16), in the interior of which at least one throttle or control body (42) is arranged which defines a control slot between itself and a housing wall which varies pressuredependently (according to the position of the lip 42 relative to the wall 46), in particular according to claim 1 or claim 2, wherein
 - the housing (14, 16) is formed of at least two housing parts (14, 16) and a housing parts seal (44) is provided between the opposing sides of two adjacent housing parts (14, 16) which is integrally connected to the at least one throttle or control body (42) supported in the interior of the housing.
- 2.2 The subject matter of claim 3 thus fails to meet

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

the requirements for novelty (PCT Article 33(2)).

3. Dependent claims 1-4, 6, 9-30 and 32-35

Dependent claims 1-4, 6, 9-30 and 32-35 (see also the search report) relate to purely structural measures which belong to the prior art or are of the kind that a person skilled in the art routinely makes on the basis of familiar considerations (see search report). Dependent claims 1-4, 6, 9-30 and 32-35 therefore fail to meet the requirements of PCT Article 33(2) and (3).
